# Europe today is in a greater state of turmoil and flux than at any time since the end of the second World War.

On Millennium night we turned our backs on the bloodiest century in history. But across the nations of Europe we have entered a new 'dark age', as country after country has systematically overturned its heritage and replaced Christian foundations of government with the godless beliefs and practices of secular humanism.

**W**hen darkness prevails, however, the lights that are there will shine ever brighter. In response to the intercession of the few, the light of truth which penetrated the pre-reformation darkness transformed the nations for the many.

Intercession changed the course of history during the second world war and for some time now we have been burdened to pray into the current broken-ness of Europe. In this special intercessory conference, we are formalising our unity as a ministry in a commitment to pray for a new reformation to burst out across the European nations.

We are in the middle of a different kind of war, but God still hears prayer and we are delighted to invite you to share with us in this highly strategic intercessory event at Huize Baak, the home of Ellel Netherlands.

Our International Leaders will be joined by Charlie and Anita Cleverly to speak into the conference as a foundation for our times of intercession and prayer.
